

# Easygrip Pendant

- Easy grip, light weight design for patients with limited grip.
- Backward compatible with existing systems in the industry.
- Hard plastic body cover for easy cleaning.
- Simple, reliable and price competitive.
- Standard connection nurse call switch to tip common to sleeve and ring

## General description

This pendant is water and dust proof with IP Rating of IP67. For infection control, the silicon button is made with an anti-microbial inhibitor using silver-

nano technology. The pendant's profile enables an easy wrap around for the patient's palm either for a left or right hand grip.
